

# Intellectual/Developmental Disabilities: Employment Services and Job Training

## Supported Employment Individual Placement Program (SEIP)

Elwyn's Supported Employment Individual Placement Program helps individuals of all ages, with all types of disabilities and disadvantages, find employment in their community.

The purpose of this program is to support you through the employment process. We provide employment opportunities with full wages in integrated settings, on-going job coaching to ensure job retention and advancement, counseling, personal development, and rehabilitation services.

### We Offer

- Employment Preparation
- Situational Assessment
- Job Search and Development
- Job Coaching
- Advocacy
- Training Internship Assistance
- One-to-One Support
- Ongoing Employment Management

### Supported Employment

Our staff will work closely with you to find a job, help you gain skills and work experience for future employment, and provide support, training, and guidance for job success and career growth. We offer both individual and group placement opportunities as well as the option of 50% to 100% job coaching as part of our Supported Employment Program.

### Direct Placement

A job coach is available to provide on-site support during the first 90 days of employment to help you acclimate, master new job duties, and build workplace relationships. If more help is needed after 90 days of employment, we can work with the Department of Rehabilitation to negotiate additional support.

### Paid Internship Program

A paid internship can provide extensive on-the-job training. Paid internships can be customized to meet an individual's and employer's needs, and may last for up to one year. We will work with you to find an appropriate company and position within the community. Permanent employment is the expected outcome.
